The

Review®

Northwest Christian High School is proud to announce that Princeton Review test preparation is now a part of the everyday classroom experience for juniors. After extensive training, our team of junior teachers has been equipped with the Princeton Review tools which will allow every NCS eleventh grader to be exposed to and prepped for their college entrance exams. This opportunity could provide a student with the means to attend their dream school with a scholarship they never knew was possible. Through our partnership with in-class and after school Princeton Review courses and materials Northwest Christian has made it possible for each of our students to strive for their best in Pursuing His Purpose for their lives!

### **Productive Preparation**

We know that great scores take work. That's why our program is designed to be efficient, targeted and strategic so you make the most of every minute you spend prepping.
